Martha Bradford Swann Coordinated Silver Reunion

## "Hello! Hello!"

A nation-wide telephone campaign by alumnae to raise money for the Loyalty Fund began in Macon on Wednesday, May 22. For three nights some 20 Macon alumnae sat at phones from 7 to 9 calling prospective givers in a whirlwind windup of the 1971-72 effort.

"If alumnae will send their Loyalty Fund contributions by July 31 they will still receive the drawing of the Mt. Vernon Porch", said Frances Van Horn, alumnae director.

Macon alumnae club gave \$1600 as a kick-off gift. The telephone campaign will move to other cities, probably in the fall, and givers to the 1972-73 campaign will receive black-and-white drawings of the Willet Memorial Library, 5" x 7", suitable for framing. Proceeds this year will go for unrestricted use of the College.

## . . . and Vale

The 133rd commencement exercises were held on Sunday morning, May 21, in Wesleyan's Porter Auditorium. Mercedes McCambridge, Academy Award-winning actress, who lectured on campus at Project '71, was invited back by the seniors to be their speaker. A piano solo was performed by Mitsuko Nakamura, a junior. The Rev. Allen Sanders, class sponsor, gave the invocation.

Lynn Golson's name will be engraved on a plaque in Willet library, for having achieved the highest academic standing for four years of work.

Leslie Brooks received the Katherine Rogers Memorial Award for Excellence in Written English. Constance H. Goudeau and Ada Parsons shared the Ross-Walker Award for Excellence in Spoken English.

Marvette Baldwin and Marlina Kawira shared the Susie Martin Catchings Memorial Award given to the student who has shown the greatest progress in the field of music during her four years. (set up by Katherine Catchings Ware, Atlanta)

Ann Perkins and Jane Magrath shared the Chenery Award, highest award given for excellence in music.

## REUNION IS

### “MARVELOUS” . . . “MEMORABLE”

REUNION 1972, WAS marvelous and memorable, they said, when the two days drew to a reluctant close. Since then the letters have poured into the Office, and the words are repeated and repeated . . . marvelous . . . memorable.

It is a moot point, who had the best time. Perhaps it was the Silver class . . . or the Golden . . . or the ones who marked their 60th milestone . . . although some of the younger girls insisted nothing could be sweeter than their getting together again on campus.

When East Meets West — and South! — unique charisma ensues. Mary Euyang Shen, born of Chinese parents and educated in China before coming to Wesleyan, was the speaker and charmed everyone. Printed menus bore Chinese names and lettering; a wealth of flowers filled Wesleyan's priceless porcelains. (arranged by Valeria McCullough Murphy, '48, Virginia Mitchell Hutcheson, '64, Laura N. Anderson O'Callaghan, '33). Mrs. Willaford R. Leach, who was inducted into the alumnae association, brought trays of orchids up from her greenhouse in Palm Beach, so that VIP's and others were strung with her exotic corsages. All this, plus the love evinced by returning “girls” for Wesleyan and each other — the true Spirit of Wesleyan — made it marvelous and memorable.

They began arriving on Friday afternoon, April 14, settled themselves quickly at motels, and whisked out to campus to register; to hear Joy Hatcher Fason, '58, in native dress, tell of the joy of being a missionary in India, with her husband, for four years; to join their peers at the President's reception in Hinton Lounge,

and the gala buffet supper in the Anderson dining room.

Program was given by five students who had studied unusual courses during Project '72 in January: Eloise Brown, on her work in the ghetto outpatients clinic for Chicago's Dept. of Health; Kathy Weeks, on plant life in the Florida Keys; Margaret Ausfield, on art and history of England and France from her travel seminar; Ann Hogue and Eloise Bruce Whitmire, on stage make-up.

Reunioners could hardly wait for the parties that night. Golden Girls stayed in Porter building, in a small parlor; they stayed and stayed and talked and giggled and looked at each other's snapshots until the night watchman came around to lock up.

Silver girls . . . “Some brought 25 extra pounds, some new husbands, some different hair colors, but all brought that Golden Heart Spirit”, reported Martha Bradford Swann, after the party at her house.

#### *Silver Words*

“We are each grateful to Wesleyan for our education, for our good moral and religious background, for our love of America, and the realization that we must keep an unshakable faith in God.”

The historic 60th girls partied at Jennie Loyall Manget's, with Alleen Poer Hinton and Alice Domingos Evans as co-hostesses. Mrs. Leach, one of the guests, wrote Jennie: “It was wonderful to see you in your home and looking so well and the Dr. (Dr. Manget, 93) spry as a cat. Never have I seen a more inspiring sight than your precious classmates, sitting in your living room . . . I am so proud of my honor and all that the Stricklands and Mangets are doing for Wesleyan and humanity.”

NEXT MORNING THE CHIMES rang out, played by Herbert Herrington, '45, and long rows of seniors in black, flanked by candlelighters, wound across campus, musing on the inspirational words just spoken by Dr. Frederick Wilson. Pauline Pierce Corn, '18, gave the invocation, seniors accepted lighted candles, with Mrs. Leach taking hers from Nina Shepard Terrell, '58, alumnae president, along with the Benson pledge.

There was music by Gen Shelton and Kay Tucker, '73, and Nancy Rowland Rehberg, '66, and Bonnie Keistler Martin, '65; then the speaker and memorial service (flowers by Jeannette Wallace Oliphant, '26).

Business included election of Ann Maria Domingos as Alumnae Trustee and Jean Cone Snooks as member of alumnae board of managers (replacing retiring Polly Corn and Miriam Rudisill Smith). Alumnae awards, a special citation for Frances Strohecker, gifts, and, finally, the Alma Mater closed the morning.

Lunch in honor of new alumnae was gay and colorful, with more singing, by Barbara Brown Dean, '55, and Susan Thigpen McDuffie, '53. No one seemed in a hurry to leave. They lingered to talk to Mary Shen, the speaker, and to have Willie Snow Ethridge autograph her new book, “Strange Fires”.

At last it was over. It was wonderful . . . memorable, they told Jackie Davis Richardson, '60, chairman, and Sandi Bell Shipp, '66, Macon chairman of the weekend. Director Van Horn, Editor Nadler, and Secretary Helen Booth gathered up the candles and programs and began talking with Nina about “next year”, rejoicing in promises of many to come back soon.

#### DISTINGUISHED ACHIEVEMENT

RAY BALLARD, AB & BM '18  
LOUISE BALLARD, AB '24

For the first time a joint alumnae award is being bestowed upon sisters. The Ballards have worked together as a team, helping and strengthening each other. In addition to her accomplishments in her own area of music, Ray has made it possible for her sister, whose eyesight has become impaired, to continue her work by driving thousands of miles. With their mother, who died two years ago at 92, they were known as "the three Ballard girls." Their home at Lake Junaluska for eighteen years and at Waynesville for eight years was and is a haven of hospitality to the large family of Wesleyan alumnae and friends who sojournd each summer at Lake Junaluska. They serve as "official hostesses of the College,"—their every thought of Wesleyan. Many will remember recitals Ray gave while she taught piano at Wesleyan Conservatory. After graduation from Wesleyan, she taught piano at Wesleyan Conservatory; studied piano with Thuel Burnham and later with Edwin Hughes in New York. She received a scholarship to study with Isidor Phillippe at Fontainebleau, France. She served as Counsellor of Women at the Conservatory and later was Head of the Piano Department at Connecticut College for Women in New London, Conn. Louise earned her M.A. at Emory U., then two years of graduate study at Northwestern U., majoring in History of Religion. In 1925 she sailed for Shanghai to teach English at McTyeire School for Girls. After two years, with other missionaries forced to return on account of the war in China, she came home, bringing with her to Wesleyan six Chinese girls who were her students at McTyeire School. She taught English at Blackstone College, Abingdon, Va. Wishing to complete her work for her Ph.D. in English, she returned to Northwestern U. The garden club became one of her later interests. She served as State President in North Carolina; was elected South Atlantic Regional Director; later was Assistant Treasurer and Chairman of the Finance Committee of National Council

### TRIBUTE TO FRANCES

To the late Dr. Silas Johnson Wesleyan we must be forever grateful for the many fine things he accomplished for the college. Today we are thinking especially of one of them. He brought Frances Strohecker to Wesleyan.

She began work as his secretary in 1942, coming to us after 13 years as secretary to the pastors of Vineville and Mulberry Street Methodist churches. Here she had acquired knowledge of the Methodist Church and its membership that was to be of value to each of the presidents under whom she was to serve, and of especial importance to Dr. Johnson in his immediate task of clearing the moral obligation of the college to its bondholders.

Frances's family were old Maconites. Her grandfather, Dr. E. L. Strohecker, had been an early mayor of the city. She had graduated from Lanier High School and the old Georgia Alabama Business College before starting her business career at Schofield Iron Works where she worked ten years before moving into work with the church.

This new secretary, we were soon to discover, was amazingly endowed. Her memory was remarkable; her mind keen and able to grasp the details of a problem at a glance; her nature kind and generous. Her judgment, based on sound common sense,

of State Garden Clubs for four years. A devoted church worker, Louise is finishing her term as Chairman of the Committee on Membership and Evangelism as well as President of the Waynesville District W.S.C.S. She was chosen as "The Woman of the Year" in 1970 by the Business and Professional Women's Club. She was given the highest award in the State Garden Club, the Maslin Award. The Alumnae Association is happy to present the joint Award for Distinguished Achievement to Ray and Louise Ballard, who have lived and served in the truest sense of sisterhood.

was free of personal bias for hers was the rare ability to separate head and heart. She was so capable that she ran her office with an effortless efficiency that left her time to help all of us with our problems. Her forthright honesty inspired our confidence.

So great was the confidence of Dr. Johnson and the Trustees in her ability that, when the business manager resigned in 1949, they appointed her to assume his duties. She managed the business affairs of the college with skill and economy until 1953, years that included the tragic illness and death of Dr. Johnson in 1951. In 1953 she returned to her earlier position as secretary to the president. It is from this position that she now retires. She has served six presidents and her pride has been in the success of their endeavors.

Many awesome responsibilities have been hers during the years. Her ability, courage and stamina have been equal to them all. Her amazing self control has enabled her to meet each emergency with cool composure. Her selfless devotion to Wesleyan has been unsurpassed.

On March 16, 1972, the Board of Trustees, following a resolution offered by President Strickland, paid her the signal honor of establishing a \$10,000 library book endowment in her name. This delights us and we shall be looking for the Frances Strohecker book plates in the library next year.

Today we are proud to remember that the Wesleyan Alumnae Association, in 1960, elected her to honorary membership. This is the tie with which we shall bind you to us, Frances, so that, even in retirement you will still be with us, working for Wesleyan.

*next reunion in '77*  
**'12 "Dear Girls of 1912"** was the salutation of the letter written inviting them to "the pleasure of being together", at Wesleyan for their 60th reunion. Writers of the letter and organizers of that historic reunion were JENNIE LOYALL MANGET, ALLEEN POER HINTON, and ALICE DOMINGOS EVANS, close friends and close neighbors; the three live next

door and across-the-street from each other on Osborne Place, in Macon.

"Only 18 were graduated in our class", said Jennie, and "five of those came back, along with 'Specials' (the cutest girls were 'Specials' who married rapidly). They all enjoyed being back at Wesleyan, were pleased they said, with Wesleyan."

The Three gave a party at Jennie's, where everybody had a happy time, enjoying the chatter and the tales (and pictures) of grandchildren, the home-made peach ice cream, the Chinese art and other treasures of the house, many of them brought back by Jennie's husband, Dr. Fred Manget, after his 40 years in China as a medical missionary. Members of the classes of '09, '10, and '11 attended the party, and special guests were Pres. and Mrs. Strickland, Mrs. Willaford R. Leach (ANN WINSHIP BATES, of Palm Beach, Fla.), who was installed as an honorary alumna the next day, and the latter's friend, Mrs. Hodge, of Atlanta.

VES PARKER still lives in Arcadia, Fla. "Wouldn't it be sheer joy to me to be able to attend our reunion?" she wrote "I shall be thinking those two days with nostalgic memories of old W.F.C. and with best wishes for the future of Wesleyan College". Ves reared her nieces, Vivian and June Parker, daughters of her brother Zeb and her college roommate, Vivian Lee. She moved to Macon so that Vivian could attend Wesleyan, specializing in music under Prof. Maerz. June and her family live with Ves in the old home in Arcadia.

WINIFRED TUMLIN was missed at reunion; she died Jan. 9. She and Moselle had moved to Phillips Presbyterian Towers in Decatur. Deepest sympathy to her family. Classmates remember how she added to their happiness, with her enthusiasm, at their 50th.

ALICE DOMINGOS EVANS, Macon, has kept in touch with her classmates as Class Agent, and has been enthusiastically interested in Wesleyan's plans, years ago in Atlanta, and since she moved to Macon. A devoted gardener, she has "the prettiest lawn in the city of Macon", is active in garden club and Federation, also Vineville Methodist Church, its WSCS, and chapel altar. With her late husband, Col. W. D. Evans, she lived all over the world, and has in her home beautiful treasures from far places.

Thanks to the son of the late VELVA ESTELLE DYKES GREEN, William D. Green, Tallahassee, Fla., for

information about his mother, who, at 15 entered Wesleyan and knew the Soong sisters. Her sister, LIBBY MAYE DYKES LeVEILLE, was class of '29. Our sympathy to all the family.

PETRONA HUMBER HEAN, New Cumberland, Pa., is an invalid in a nursing home. Her daughter, ELIZABETH HEAN STONE, '48, lives near and gives her constant care.

REBA MOORE STANDIFER writes of the happy life she has enjoyed as the wife of a physician in Blakely, Ga. She also sent her daughter to WC. ANNA RUTH CHILDS MATTHEWS, now at Magnolia Manor, Americus, Ga., is greatly missed in Macon.

LILLIAN BATTLE lives in Macon in her old home on College Street. Other Macon members are MARIE McMANUS KERNAGHAN and OLIVE McWILLIAMS HATCHER.

Deepest sympathy to ROSALIE MALLORY WILLINGHAM, Macon, who lost her husband, Broadus Willingham, Jr., several months ago. "He was always a friend and benefactor of Wesleyan. Their two families have been religious, social, and civic leaders throughout the generations, beginning with Thomas B. Slade who was a valuable founder of Wesleyan and a member of the first faculty.

LUCILLE RAY LAWTON, Atlanta, suffered a major operation shortly before reunion. She and her husband have a son who is head of a Baptist college in Italy; his daughter attended Governor's Honors at Wesleyan several years ago.

MARTHA HOWARD BALKCOM, Macon, sent her two daughters to Wesleyan. They and their brother were hosts on the Golden Wedding of their parents several years ago. Martha (daughter) has since died at her home in New England. We offer deepest sympathy.

MARTHA KING JOHNSON, Waycross, Ga., wanted to come to reunion, remembering the pleasure of the 50th, but had undergone several operations. Although an Episcopalian she became a Methodist when she married Dr. Johnson, who came of Methodist preacher stock. She wrote: "I have been very happy and, I think, a faithful member, active in the Women's Society for fifty years."

She has nine grandchildren, from 15 to 27. Her husband, Admiral Robert H. English, was killed in 1943. Except for cataracts coming, my health is very good for my eighty years."

ANNA RUTH WISE TRAIL GRAY-BEAL, Roanoke, Va., came to reunion with her son, Bill Trail, though returning seemed almost impossible because of illness in the family — two sisters in the hospital, a son-in-law with heart trouble, and daughter-in-law just over surgery (widow of son

Her daughter wrote that it was simply delightful, a memorable trip. "All of you are remarkable! Still so good-looking, and charming, too. I think it is grand". Her daughter, SANDRA TALLY MARTIN, attended Wesleyan, '63. In doing some research for a UDC paper Kittie Lee discovered in Rev. W. R. Tally's biography of his father, Rev. John Wesley Tally, an account of the founding of Wesleyan and his part in it in 1835, when his father was superintendent of the Macon District. She sent Wesleyan a copy of the paper.

## CLASS OF '22

So many years!

And yet so swift in retrospect,

Since bright ambition stood

In all its boundless pow'r

Undaunted, bold.

In eager readiness prepared

For every challenge that might come

To test its will.

We face our dreams

So mighty and so daring once

When youth was in command

And strength was yet untried,

But eager then

To meet the day, Apollo-like,

With reins in hand, and ardent zeal

To guide our destiny.

Each day of life

Will still renew the thoughts we prize

Of days of former joy

But richer grow delights beyond our dreams

As lives that touch upon our own

Become a part of all we were

And now we are.

## SHE BUILDS BRIDGES OF UNDERSTANDING

*Mary Euyang Shen, '46, prepares material for 23 VOA studios in Washington, D.C., to be transmitted by shortwave and satellite overseas. Here are excerpts of her Alumnae Day speech.*

Twenty-eight years ago I came to Wesleyan to earn my college degree and learn about America. I remember travelling the length and breadth of Georgia, talking about China, acting as an unofficial voice of China. It seems a fitting evolution, now that I am thoroughly Americanized, to find myself for the past twenty years making a career of working for the Voice of America, telling the story of America to people in Asia.

I was gratified to be asked to come and share Alumnae Weekend with you and to talk about the Voice of America. Certainly my years at Wesleyan began the process of preparation which helped me understand the land where I was born and by now have spent approximately half of my life. The first half and most of my earlier school days were spent in China. I am pleased that my dual Chinese-American background has enabled me to play a small part in building a living bridge between the East and West, bringing about better understanding of what is happening in this country in a context the Asian listener can better understand.

What is the Voice of America? We who work for it call it VOA or sometimes simply, the Voice. We are the official spokesman by radio to the people of the world.

A listener in Indonesia wrote Washington asking for some pictures of the American astronauts so that he can prove to a respected elder in his village that men have really walked on the moon as he learned by listening to the Voice of America. The King of Laos was encountered taking an evening stroll in the Laotian royal capital. He was toting a transistor radio and listening to the Voice of America. An African student studying in China, a hundred fifty miles south from Peking wrote for a subscription to Ebony after

Broadcast journalism is a with-it, exciting, glamorous profession. I am very fortunate that this was what I was trained to do, and that when the job is done properly, East is brought a little closer to the West. I believe that all healthy, educated, intelligent, contemporary young people owe it to the society they live in to be self-reliant, giving and useful.

listening to an interview with the editor on the Voice of America. A Japanese National Railways employee not only learned English himself but is teaching others, all through listening to the Voice. Dr. Henry Kissinger, in Shanghai on his second trip to China in preparation for the President's visit there, learned of the all-important China representation vote at the United Nations from the newscast of the VOA.

The Voice of America first went on the air thirty years ago on a dreary February day. It was two and a half months after Pearl Harbor. The Voice was given the mission to explain to the world why America was in the war, for what we were fighting, and to answer enemy propaganda. The first broadcast was in German. Among other things we said:

"Daily at this time we shall speak to you about America and the war — the news may be good or bad — but we shall speak the truth."

Today we continue to explain America to the world, our foreign policy, our culture, traditions, our routines, our ways. We talk about our technological, medical, scientific achievements. We also try to put into perspective our social problems and preoccupations.

In an average week, all around the world, more than fifty million people tune their radios to the Voice of

America. When extraordinary events take place, this basic audience increases dramatically. The VOA audience for the Apollo Eleven broadcasts totalled some seven hundred fifty million, twenty-seven per cent of the world's population outside of the United States.

Today the Voice broadcasts in thirty-five languages, with another twenty on special occasions. We are on the air just under eight hundred hours each week. We spend about forty-five million dollars annually with about fourteen hundred employees in this country. All this makes us number three in international broadcasting, ranking behind the Soviet Union and the People's Republic of China.

The first Russian language service was broadcast by VOA twenty-five years ago. Today the Russian language service is on the air eleven hours a day, supplemented by broadcasts in Ukrainian, Armenian, Georgian. To Communist-controlled areas in Asia, there are broadcasts in Chinese, Korean, Russian and Vietnamese, and in the Western Hemisphere, special Spanish programming beamed to Cuba.

VOA also broadcasts to those who wish to improve their English. An estimated seven hundred million people in the world have some knowledge of English and millions more study it in their schools. In addition to regular English language broadcasts, news and features are presented in a simplified English which we call "Special English". This uses a vocabulary of only twelve hundred words, delivered by an announcer speaking at two-thirds the normal speed.

My job is to develop and supply radio material to stations in the Asia-Pacific region — and reach listeners who normally do not listen to shortwave.
